**2. Request for Matching Funds by Green-Independent Party**

Patrick Quinlan of the Green-Independent Party has made a request for matching funds with respect to Portland legislative candidates. He believes that voter identification information received by Democratic legislative candidates constitutes an in-kind contribution to their campaigns, and should trigger matching funds. An attorney for the State Democratic Party has responded in writing that lists of voters that include voters' preferences are excluded from the legal definition of contribution under the Election Law.

**3. Complaint by Representative John W. Churchill**

Representative John W. Churchill has submitted a written complaint regarding campaign literature mailed by the Business Minded Democrats political action committee. He believes that information in the literature regarding his voting record is inaccurate, and has asked for a determination by the Commission whether he is entitled to matching funds.
